Environmental Policy

Plasma Coatings Limited provides a specialised service to the thermal coating industries.

We recognise that our activities have an impact on the environment in terms of the use of raw materials, emissions to air and water, and waste generation. We, as a company, seek to minimise this impact as far as is reasonably practicable.

Plasma Coatings Limited is committed to:

- Continual improvement in its environmental performance
- Prevention of pollution
- Compliance with all environmental legislation, regulations and codes of practice relevant to the industry sector in which it operates.

It is the policy of Plasma Coatings Limited to:

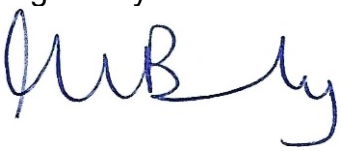

- Make efficient use of natural resources by monitoring and conserving energy, water, minimising waste and re-cycling where possible
- Meet its duty of care requirements in relation to waste by ensuring the safe-keeping, transportation and subsequent recovery or disposal of waste
- Re-cycle customer supplied packaging material
- Reduce landfill waste by actively seeking to re-cycle all waste and/or spray materials
- Use other recycled materials whenever these can be commercially justified
- Keep transport use to a minimum and regularly service vehicles to maintain their efficiency
- Work with our suppliers to ensure they recognise and reduce the environmental impact of their products and transportation

Plasma Coatings Limited will review this policy on an annual basis and record this within the Management System Review meeting, taking into account any changes within legislation and/or our organisation along with any other known factors relevant to this policy.

We will communicate this policy to all our employees and ensure that they are provided appropriate training to raise awareness of all relevant environmental issues.

Plasma Coatings Limited will make this policy available to all interested parties including customers, suppliers' and members of the public if applicable or relevant.
